

QUALITY

PURPOSE

Cimeco is committed to the delivery of 'on-time', cost effective and high quality products and services that satisfy the diverse requirements of our customers in both national and international markets whilst maintaining the practice of "Zero Harm" to our people and the environment.

APPROACH

- Establish a clear commitment to quality throughout our operational activities.
- Establish a Quality Management System (QMS) which effectively collates all business systems and processes into an efficient, robust, streamlined and user friendly system which ensures our customer's needs are met or exceeded.
- Ensure the QMS is communicated, monitored, and reviewed to ensure continued suitability.
- Focus on the continued delivery of research, education and continual improvement to the QMS.
- Commit to, and promote the standard of AS/NZS ISO 9001–2008

COMMITMENT

This policy applies to all Cimeco personnel, contractors, and visitors affiliated with Cimeco, across all projects and operations at all times.

The Cimeco Board of Directors commits to ensuring the Quality Management System is maintained and operated in accordance with the Company's continual improvement practices.

Andrew Ellison
Managing Director
